

## Learning English Starts Here

The *TOEFL Primary*® tests are designed to assess the English-language proficiency of young students ages 8–11 in reading, listening and speaking. The tests provide support for teaching and learning with information about your students' abilities; engaging, age-appropriate content; and feedback that helps keep young learners motivated.

### Benefits include:

- Assessment of multiple proficiency levels so you can confidently measure all your students' skills
- Performance feedback and recommendations about next steps to help guide student learning
- Scores mapped to CEFR levels, for comparison of your students' abilities in relation to international benchmarks
- Reading scores that are linked to Lexile® Reading measures, making it easier to find the books and articles that best match students' English reading levels and their interests, which will then help improve their reading ability
- Easy-to-understand score reports and achievement certificates to illustrate student progress for parents

### Ways you can use scores:

- Identify student strengths and weaknesses
- Inform placement decisions in levels of English instruction
- Guide teaching goals
- Determine instructional plans
- Monitor student progress
- Shape communication with parents about student learning
